Subject: Opposition to Historic Preservation Commission

Please note that I am writing to express opposition to the formation of an Historic Preservation Commission.

I have owned my home in the Village for 30+ years and believe there are other ways to ensure the Village charm is intact for many years to come, such as:

- applying existing zoning regulations for new construction (avoiding overbuilding and "McMansion" scenarios)
- requiring a permit for new construction before approving a residential demolition (avoiding unsightly empty lots and misunderstandings about what is allowed in the space)
- including the Main Street Business District in discussion of maintaining the ambiance of the Village, as it is typically the Main Street which first attracts visitors to our town

Thank you,

Mike Voigt
